

## Arthur "Jack" Rocka

March 18, 2020

Arthur "Jack" Rocka, age 80 of Magnolia, passed away March 18, 2020, after a lengthy illness. Jack has gone to be with his Savior and Lord. He was a master mechanic and could repair anything. If it was a heavy earth mover, transmission or airplane, he knew how it worked. He was an entrepreneur, inventor and held many US patents. He was a successful manufacturer, great provider, air pilot, sea pilot and basically a mechanical genius. When Jack was younger, he loved fishing, shrimping and flying his plane. It was not uncommon for him to do all three of his hobbies in one weekend.

He was hard to keep up with!

The Addison family and staff of Magnolia Funeral Home extend condolences to his family during this difficult time.

Due to the current situation with the Corona Virus all services will be private, by invitation only.

“ I’m sorry to see Jack passed some time ago. I have fond memories of him staying with my family in Kansas when I was a child.. From his “ floor show” to eating jalapeños or anything else I dared him to, his beloved shrimp boat and filleting a fish like no other. He was a fun force to be reckoned with and life was a bit more fun when Jack was around. He loved his family fiercely and was one of the kindest, most loving people I met. So sorry for your loss.
