

## Bobby Wayne Dearman

July 23, 2018

Bobby Wayne Dearman peacefully passed away in his Houston, Texas home on July 23, 2018. Bob is survived by his wife of 64 years Jeanette Kubin Dearman, his daughter Shari Dearman Harp and his son Brett Dearman as well as six grandchildren and nine great-grandchildren.

Bob was a native Houstonian born on September 3, 1933 to John Robert and Wilma Dearman. He grew up in the Park Place area of Houston and attended Milby High School, graduating in 1952. Bob's hobbies included hunting, fishing and building custom hunting rifles. Bob spent much of his career in Houston as a draftsman engineer but in 1971, he cashed in his chips and moved his young family to Meeker, Colorado to embark on a complete career change as a guide and outfitter catering to deer and elk hunters. Being an avid outdoorsman, the transition to life in the wilds of Colorado came easy. In the midst of this business endeavor, he also obtained his real estate license and had a successful run at real estate sales and development. After a brief stay in Vernal, Utah and Missoula, Montana, Bob & Jeanette returned to the Houston area in 1989 and have lived there ever since. Bob briefly returned to the draftsman engineering career he left 40 years earlier, but officially retired in 2003. He was a devoted fan of the Houston Rockets, never missing a televised game.
